

Advanced Manufacturing Training and Career Opportunity

*Begin a new career, a new future in
Advanced Technologies*

INTERESTED IN PERFORMING HANDS-ON ADVANCED TECHNOLOGY WITH AEROSPACE, AUTOMOTIVE RACING OR MEDICAL DEVICES?

These industries need very precise parts that only Computerized Numerical Control (CNC) machines can produce. Critical parts, with exact specifications are required in all advanced technologies. This program trains and prepares participants for entry-level jobs as CNC operators, which are in high demand.

INFORMATIONAL SESSION

Tuesday, July 25th, 2023

6 PM - 7 PM PST

To register: <https://tinyurl.com/CNC-0725>

ENTRY LEVEL TRAINING

Learn basic technical drawings, CNC operations, and machine codes

REWARDING CAREER PATH

Upward mobility with future advancement

CUTTING EDGE TECHNOLOGY

State-of-art manufacturing concepts and technology

GUARANTEED INTERVIEWS

Scheduled job placement meetings with local CNC manufacturers
