

CNC Machining Training and Career Opportunity

*All inclusive 12-week, full-time,
in-person training*

**Join us for our OPEN HOUSE for more information
about our Uniquely Abled Academy (UAA) CNC and
our CNC Fast Track Training Programs**

Many industries need very precise parts that only Computerized Numerical Control (CNC) machines can produce. Critical parts, with exact specifications are required in all advanced technologies. This program trains and prepares participants for entry-level jobs as CNC operators, which are in high demand.

INFORMATIONAL SESSION

Thursday, July 18, 2024

6 PM - 7 PM PDT

To register: <https://tinyurl.com/CNC-0718>

Tuesday, July 30, 2024

6 PM - 7 PM PDT

To register: <https://tinyurl.com/CNC-0730>

ENTRY LEVEL TRAINING

Learn basic technical drawings, CNC operations, and machine codes

REWARDING CAREER PATH

Upward mobility with future advancement

CUTTING EDGE TECHNOLOGY

State-of-art manufacturing concepts and technology

GUARANTEED INTERVIEWS

Scheduled job placement meetings with local CNC manufacturers
