

## Certified Supply Chain Professional (CSCP) Program – 48 hours

### On-line, Instructor-Led, “Virtual Classroom” via ZOOM

**If the course is online, each participant must have access to a computer (no shared computer with other participants) and a reliable internet connection.**

This educational program was created to meet the rapidly changing needs of the supply chain management field.

*From manufacturing to service industries, regardless of whether a company is serving businesses or consumer markets, is for profit or not-for-profit, the increasingly important role of supply chain management is affecting all organizations. Customers already expect good quality at low prices, and speed of delivery is becoming more important. As a result, effective supply chain management has become essential in successfully competing in today’s global marketplace.*

The CSCP Prep Program takes a broad view of the field, extending beyond internal operations to encompass all the steps throughout the supply chain—from the supplier, through the company, to the end consumer—and provides you with the knowledge to effectively manage the integration of these activities to maximize a company’s value chain.

#### Benefits of the CSCP Program

- ✓ Learn to boost productivity, collaboration and innovation
- ✓ Discover how to positively affect lead times, inventory, productivity and bottom-line profitability
- ✓ Understand how to manage the integration and coordination of activities to achieve reduced costs and increase efficiencies and customer service
- ✓ Gain the knowledge to effectively and efficiently manage worldwide supply chain activities

#### Included with the course:

- ✓ Comprehensive reading materials, a printed set of the PowerPoint slides used during class discussion and web-based, interactive study tools and practice questions in one mobile-friendly program... the printed materials are available in digital format to be read on any phone, tablet or laptop.
- ✓ Access for 1 year to the CSCP Learning Systems, an on-line, interactive study tool which aims to make it easier for students to master the concepts necessary to obtain certification. An extensive selection of online content is available through the learning systems, offering resources such as: pre- and post-exams, a Smart Study tool to help students plan their studies, quizzes for each section within the books, videos teaching course content and also exam preparation strategies, flash cards, and a “final” exam comprised of exam questions that mimics the certification test experience.

#### CSCP Certification Exam Information

***The exam is an additional cost not included in this training program and must be scheduled and paid for directly through ASCM.***

*More information about the CSCP Certification Examination is available at:*
