

Supplier Relationship Management Certificate

20 Hrs

On-line, Instructor-Led, "Virtual Classroom" via ZOOM

A Certificate course that provides you with comprehensive knowledge of the concepts, tools, and trends related to supplier relationship management. ASCM's Supplier Relationship Management Certificate provides you with the knowledge and skills needed to create long-term and low-risk relationships with valuable suppliers. The self-paced online program includes 20 hours of education and a comprehensive final exam. After passing the exam, you'll earn a certificate and digital badge. Included in the price of the materials is a year's membership, a \$119 value, in both ASCM (the Association of Supply Chain Management) and in the San Fernando Valley Chapter. To see the full list of benefits click [here](#).

Topics include:

- Introduction to Supplier Relationship Management
- Supplier Selection and Evaluation
- Supplier Development
- Supplier Performance Management
- Supplier Risk Management
- Supplier Relationship Management Best Practices

Learning Goals and Results:

Earning this certificate shows employers you have the knowledge and capability to:

- Discover the different types of supplier relationships, contracts and agreements, and challenges associated with supplier relationship management.
- Understand the importance behind strategic supplier selections and how to use criteria ranking methodology to identify supplier capabilities.
- Examine the various roles and responsibilities for supplier relationship management, types of financial assistance, and how supplier collaboration can lead to innovation for your organization.
- Understand the industry standards and best practices for monitoring, evaluating, reporting, and communicating performance expectations and how to assess and evaluate supplier performance to ensure expectations are met.
- Learn how to identify and assess the risks associated with different suppliers and the strategies and practices for monitoring, managing, and mitigating supplier risks.
- Determine how to manage supplier relationships through clear communication, collaboration, and performance monitoring and discover how to leverage technology to streamline SRM processes.

Who Should Attend:

This course will be of interest to those who wish to further their careers by obtaining a signed certificate and digital badge from the Association of Supply Chain Management (ASCM), including those that are considering Procurement careers or have a few years' experience and are looking to expand their career options in Supply Chain Management or wish to stand out in a competitive job market. It will also be of interest to those that wish to gain education from ASCM, which is generally accepted as the gold standard in Supply Chain education, training, and development, or as a pathway by those who wish to achieve ASCM certifications such as a CPIM or CSCP.

Prerequisites:

There are no formal prerequisites for this course, but some experience with purchasing and procurement would be beneficial. If the course is online, each participant must have access to a computer (no shared computer with other participants) and a reliable internet connection.
