Lean Six Sigma Green Belt Training Course 80 hours

The Lean Six Sigma (LSS) Green Belt course serves to provide participants with the knowledge and tools to perform the role of a LSS Green Belt. The LSS Green Belt training materials are comprehensive and include the phases of the LSS body of knowledge covering the background and history of LSS as well as all phases, Define-Measure-Analyze-Improve-Control, of the DMAIC process. This course is ideal for those who wish to gain a greater understanding of all phases of LSS as well as gain useful statistical and business tools associated with all phases of the DMAIC process.

What is Lean Six Sigma?

Lean Six Sigma is a business management philosophy, which aims to improve effectiveness and efficiency, at the same time, in order to improve customer experience. Lean Six Sigma is a culture of improvement, innovation and leadership, combining the principles of Lean (waste elimination) and Six Sigma (variation justification) into a cohesive and powerful skill set to drive positive results.

How can Lean Six Sigma help you?

Lean Six Sigma training provides you with the knowledge and tools to maximize time, cost, and labor resources in order to consistently meet and exceed internal and external customer expectations.

Who Should Attend?

Employees from all industries and at all levels in the organization will greatly benefit from the LSS Green Belt training course. The LSS Green Belt Training Course is fundamental training for those who need to lead LSS and other continuous improvement projects. Please call us for more information on this course.

LSS Green Belt Certification Examination:

AALSSC
American Association for Lean Six Sigma Certification

The American Association for Lean Six Sigma Certification (AALSSC) is an independent certification agency focused on providing relevant and attainable Lean Six Sigma certifications (https://aalssc.org/).

Arrangements and costs for examination are not included in this training program and must be completed separately by participant.

ETI Instructor Mike Letson is a certified Six Sigma Black Belt specializing in transactional analysis for organizations ranging from city governments to manufacturing. He is known for his high energy and results driven instructional techniques. He brings a wide range of experience from military, corporate, and entrepreneurship, allowing him to relate topics directly to each participant. Mike successfully finds new ways to combine having fun while learning.
